The South's Most Progressive Educational Institution x x x x

The University of Florida

Gainesville

Consists of Five Separate and Distinct Colleges and Five Other Branches of Varied Activities located on a domain of 613 acres.

1. The College of Arts and Sciences offers a Two-Year Pre-Medical course, and excellent advantages for a liberal education in four-year courses leading to the degrees of B. A. and B. S. James N. Anderson, A.M., Ph.D. (Johns Hopkins), Dean.

2. The College of Agriculture provides splendid advantages for instruction and training in all branches of agriculture in short courses from four months to two years and in a four-year course leading to the degree of B. S. A. Wilmon Newell, D.Sc. (Iowa State), Dean.

3. The College of Engineering affords the best technological training in four-year courses in chemical, civil, electrical and mechanical engineering, leading to corresponding Bachelors' degrees in engineering. John R. Benton, B.Sc., Ph.D. (Göttingen), Dean.

4. The College of Law—Member of the American Law School Association—offers a standard three-year course and confers LL. B. and J. D. degrees. Harry R. Trusler, A.M., LL.B. (Michigan), Dean.

5. The Teachers College provides normal training for those desiring to enter any department of public school service, and offers four-year courses leading to the degrees of B. A. and B. S. in Education and B. S. in Agricultural Education. James W. Norman, A.M., Ph.D. (Columbia), Dean.

6. The Graduate School offers courses leading to the degrees of M. A., M. S., M. S. A., M. A. in Ed., and M. S. in Ed.

7. The Summer School is co-educational, and maintained largely for the benefit of teachers of the State. College courses leading to degrees are offered.

8. The Agricultural Experiment Station conducts agricultural research work of far-reaching results and saves thousands of dollars annually for the State.

9. The Agricultural Extension Division maintains branches of Farm and Home Demonstration work which is carried on by Agents and through correspondence courses.

10. The General Extension Division—B. C. Riley, B. A., B. S. A., Director—carries the benefits of the University to those who are unable to study in residence, through correspondence-study and public welfare work, representing the Colleges of Arts and Sciences, Teachers College, Engineering and Law.

Sixteen units, or four full years of successful high school work are required for admission to the Freshman Class.

EXTRA No. 2

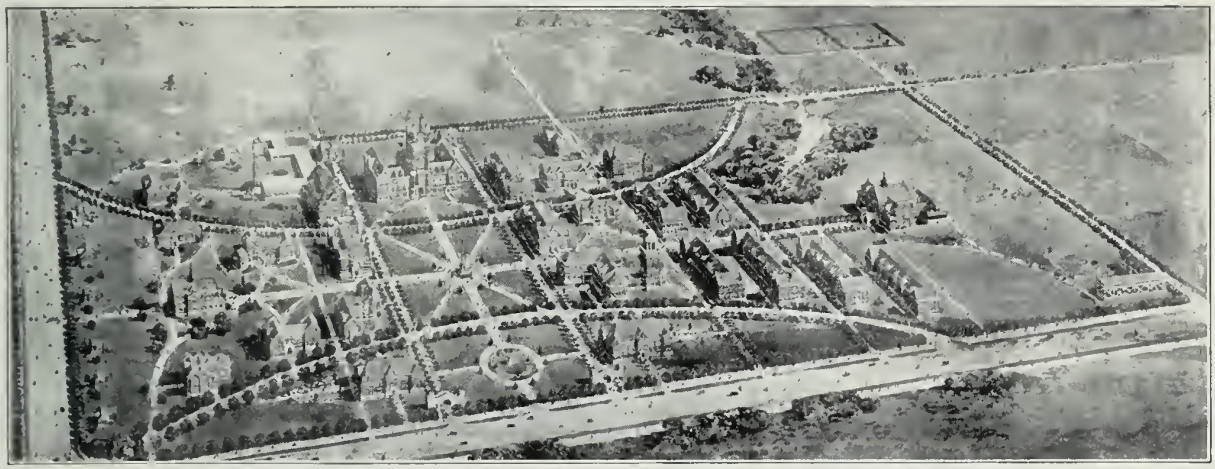
University Record

Illustrated

Published quarterly by the University of Florida,
Gainesville, Florida

Entered September 6, 1906, at the Postoffice at Gainesville, Florida, as second class mail matter, under Act of Congress, July 16, 1894

VOL. XVII MAY, 1922 No. 2



ABOVE is a bird's eye view of the University Campus as it is being developed. This bulletin contains pictures of some of the brick and stone buildings now in use, campus views, and illustrations of numerous student activities.

The University of Florida has made rapid progress since the opening of her doors in 1905. Her equipment and entire plant have been enlarged and improved annually. The most thoroughly trained professional men have been secured to direct the work of the various departments. The total registration for the first session, 1905-06, was 136, while the total enrollment for the past session, 1921-22, was 1162. The Summer School enrollment for 1921 was 783; the 1922 enrollment is 947.

Expenses are moderate. No tuition is charged to Florida students except $20 a semester in the College of Law. Only a nominal tuition fee of $20 a semester is charged to non-resident students. Total entrance fees for the session are $33, and board and lodging for the next session will be $175, payable semi-annually in advance, or $22.50 per month.

Florida's climate is mild and delightful during the entire school year. Out-door athletics are therefore enjoyed at all times, while student musical and literary organizations also present opportunities for profitable and healthy recreation. The University Y. M. C. A., the Student Honor Society, and other influences combine to maintain a high moral standard of living.

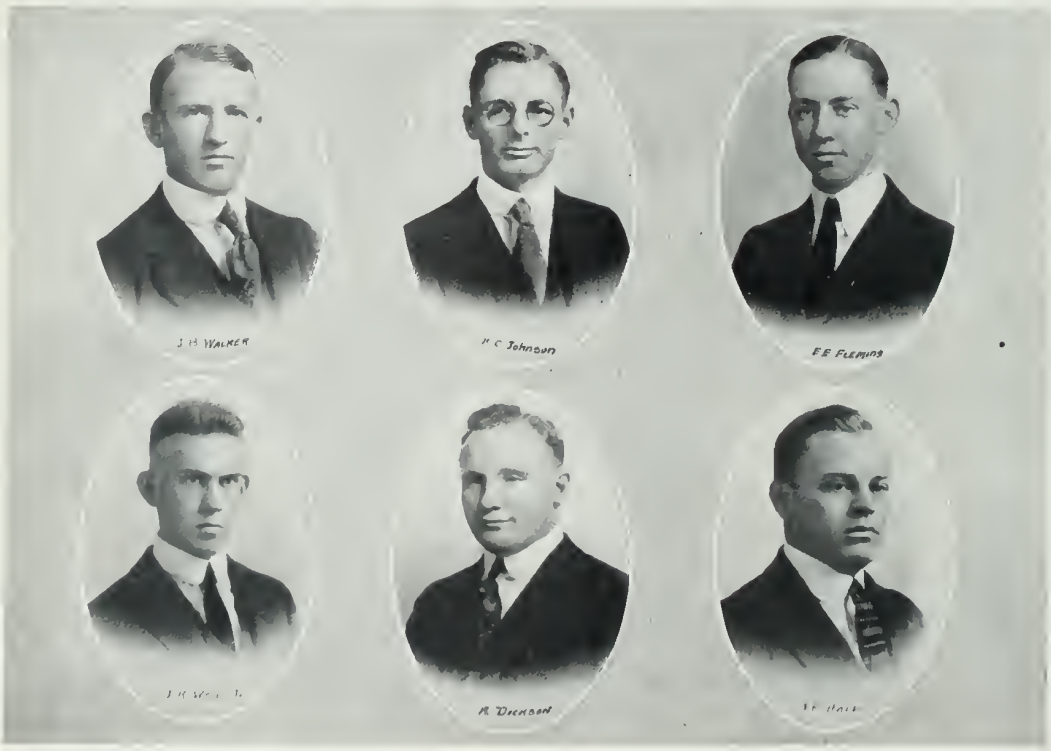
UNIVERSITY OF FLORIDA STOCK JUDGING TEAMS

The most important event of the year in stock judging was the contest held at the Southeastern Fair in Atlanta, Georgia, between the agricultural colleges of the Southeastern States. Florida stood second in this contest, and was awarded several trophies and medals for their excellent decisions.

At the Florida State Fair held in Jacksonville the judging team were awarded every prize, and the highest honors in the meet.



UNIVERSITY OF FLORIDA DEBATING TEAMS

Winning three out of four debates with the following institutions: University of Georgia, University of Tennessee, University of South Carolina, Louisiana State University.

TEN REASONS WHY

A Young Man Should Attend the

University of Florida

1. The University of Florida is the only institution of higher learning in the country where one can make a special and intensive study of the agricultural, scientific, legal, educational, business and social conditions of the State of Florida. KNOW YOUR STATE!

2. The College of Liberal Arts of the State University ranks third among American colleges in the per cent of its faculty holding Doctors' degrees from eminent universities.

3. The College of Law has been given the highest rating offered by the Board of Regents of the State of New York—a rating shared by only three other law schools in the South.

4. With free tuition to residents of the State and low rates for board and room, the expense of attending the University of Florida is less than that of any other state-supported institution in the United States.

5. The University of Florida is centrally located, within a few hours' ride from any point in the State.

6. The University of Florida has a beautiful campus of 90 acres, the grounds and buildings having been planned at the beginning with reference to the future needs of the institution. The campus is supplemented by a farm of over 500 acres which is used by the College of Agriculture and the Experiment Station.

7. The University of Florida is accredited by the Association of American Universities and is a member of: the Association of Colleges and Secondary Schools of the Southern States; the National Association of State Universities; the American Association of Agricultural Colleges and Experiment Stations; the Southern Intercollegiate Athletic Association.

8. The Adjutant General of the United States Army ranked the University of Florida among the thirteen "distinguished colleges" at which military training was given during the 1918-19 and 1919-20 sessions.

9. The University of Florida has a large General Library and an up-to-date Law Library both of which are in charge of trained librarians.

10. The University Museum and Experiment Station present opportunities for research work and the special study of various problems and conditions in the State.
